Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In view of the grant to withdraw the holding of abandonment, applicant's amendment received June 14, 2004 has been entered and examined. Claims 1-4 were previously canceled. Claim 5 was amended. Claims 5-8 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5, 6, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,849,107 to Itoyama et al.

Claim 5:

Itoyama et al. discloses a sheet metal panel comprising first and second cover sheets, said first cover sheet (107) being an internal cover sheet facing toward the roof cover or wall cladding, said second cover sheet (108) being an external cover sheet facing away from the roof covering or wall cladding; an intermediate layer (109) made from a thermal insulating material disposed between said first and second cover sheets; a plane photovoltaic element (101) disposed on said second cover sheet, said plane photovoltaic element being a flexible laminate (column 7, line 57) and being joined alone its entire surface to said second cover sheet by a cold-bonding adhesive (110) so that heat is transferred from the photovoltaic element to the second cover sheet and an

electric connecting cable (113) connected to said plane photovoltaic element and extending through a sealed bore (bore through 107, Figure 1b) in said sheet metal panel. The bore is inherently sealed, as Itoyama et al. discloses that the solar cell is sandwiched and laminated to the roofing plate (column 4, lines 47-51); the lead from the solar cell which is directed through the plate (107, Figure 1b) has been sealed by lamination.

Claim 6:

Itoyama et al.'s plane photovoltaic element comprises amorphous silicon cells (column 7, lines 47-50).

Claim 8:

Itoyama et al. discloses terminal boxes (shown in Figure 1b) capable of functioning as a vapor barrier covering the bore.

Allowable Subject Matter

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Final

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
